VIRTUAL NATIONAL SUMMIT ON "PREVENTIVE AND PROMOTIVE MENTAL HEALTH CARE"

An Introspection

There comes a time in human history which demands and opens up new vistas of intended and unintended lateral thinking, decisions and action plans affecting the humanity as a whole. Since social distancing has been identified as the integral aspect of the prevention to battle the scourge of the Pandemic. COVID-19 Pandemic is going to change our lives in many fundamental ways. This has been recognised and expressed by the world leaders and the intellectual class as well during the last one month. Quoting the Prime Minister of India in his video conference with the Chief Ministers of different states of India on April 8, 2020, a report stated: "Life will not be the same again after COVID-19... there would be "pre-corona and post-corona" for times to come. Psychosocial impact has been the most challenging at present.

The emergence of comprehensive mental health needs is well articulated in the current national research and data. Most of these conditions remain invisible and get stigmatized, unnoticed or undetected. This unique **Virtual National Summit** by **AISUCAP** aims to bridge the gap in advocacy, early identification of mental illness, a march towards strategic planning and appraisal of good practices. Such an approach shall embark on people first perspective with infinite potentials waiting to be tapped in every human being. Your participation and solidarity in celebrating diversity shall go a long way in further propelling an inclusive culture for all.

Sub Themes

- ➔ **Mental Health:** Concept, Intervention and Good Practices
- ➔ **Building Resilience** – Mental Health First Aid in School & University
- ➔ **Mindfulness** is an important life skill for 21 st century learners
